
Clamshell Mount

EAGLE
Traffic Control Systems

Overview

The Clamshell is a quick and convenient way to mount a 16-inch pedestrian maintenance housing. With one half installed on the pole and the other half installed on the housing, the dual mount pieces easily slide together creating a single, secure mount that allows easy maintenance access and quick removal and remounting in the field.

Benefits

- Made of cast aluminum alloy.
- Quick and easy to install.
- Multiple mounting options to meet various requirements.
- Tamper Resistant.
- Available in multiple colors.

Standard Features

- Design allows for mounting to left or right side of maintenance head
- Neoprene gasket used around access door and wire entrance hole on back side of mount to ensure weather tight seal.
- 3 position double row terminal block allows Field wires to terminate in Clamshell.
- 24" Wire leads provided to connect Clamshell terminal block to Ped terminal block.

Options

- 12 position terminal block version available
